

99.503: Nanoelectronics and Technology

Term 7- Elective

PG-Seminar Presentation

Presentation day and Date: Week 12 class 2 (04-Dec-2025)

Duration: 15 minutes per person

Format: PPT slides/PDF version

Submission: Submit the ppt file or pdf copy by 03 Dec 2025.

Topic:

Option 1: Choose your own topic related to
Nanoelectronics/Nanotechnology

Option 2: Select one of the topics from below

1. Design for Optimization technique in Advanced MOSFET device performance parameters
2. Design for Power and Performance in Low-Power high speed Logic Circuits Using Advanced MOSFETs
3. Design architecture of ICs for Emerging Technologies (AI Chips)
4. Design of Energy-Efficient Neuromorphic Circuits for In-Memory Computing with Novel semiconductor devices
